# CONTENTS OF VOLUME 372

*March* 1986

CREPEL Francis & PENIT-SORIA Jacqueline Inward rectification and low threshold calcium conductance in rat cerebellar Purkinje cells. An *in vitro* study. 1

JAYAKODY R.L., KAPPAGODA C.T. & SENARATNE M.P.J. Effect of calcium antagonists on adrenergic mechanisms in canine saphenous veins. 25

DILLINGHAM Mark A., DIXON Bradley S., KIM Jin K. & WILSON Patricia D. Effect of trifluoperazine on rabbit cortical collecting tubular response to vasopressin. 41

DURAND Jacques, DURAND-ARCZYNSKA Wanda & SCHOENENWEID Françoise Oxygen consumption and active sodium and chloride transport in bovine tracheal epithelium. 51

HUMPHREYS P.W. & JOELS N. The effect of pregnancy on the changes in hind-limb vascular resistance following haemorrhage in the rabbit. 63

CHERON G., GODAUX E., LAUNE J.M. & VANDERKELEN B. Lesions in the cat prepositus complex: effects on the vestibulo-ocular reflex and saccades. 75

CHERON G., GILLIS P. & GODAUX E. Lesions in the cat prepositus complex: effects on the optokinetic system. 95

MCCANN John D. & WELSH Michael J. Calcium-activated potassium channels in canine airway smooth muscle. 113

JAHNSEN Henrik Electrophysiological characteristics of neurones in the guinea-pig deep cerebellar nuclei *in vitro*. 129

JAHNSEN Henrik Extracellular activation and membrane conductances of neurones in the guinea-pig deep cerebellar nuclei *in vitro*. 149

NELSON P.G., PUN R.Y.K. & WESTBROOK G.L. Synaptic excitation in cultures of mouse spinal cord neurones: receptor pharmacology and behaviour of synaptic currents. 169

DIETZEL Irmgard D., DRAPEAU Pierre & NICHOLLS John G. Voltage dependence of 5-hydroxytryptamine release at a synapse between identified leech neurones in culture. 191

AKAISHI Takao & SAKUMA Yasuo Projections of oestrogen-sensitive neurones from the ventromedial hypothalamic nucleus of the female rat. 207

MADISON D.V. & NICOLL R.A. Actions of noradrenaline recorded intracellularly in rat hippocampal CA1 pyramidal neurones, *in vitro*. 221

MADISON D.V. & NICOLL R.A. Cyclic adenosine 3′,5′-monophosphate mediates $\beta$-receptor actions of noradrenaline in rat hippocampal pyramidal cells. 245

MELZER W., RÍOS E. & SCHNEIDER M.F. The removal of myoplasmic free calcium following calcium release in frog skeletal muscle. 261

HUERTA M. & STEFANI E. Calcium action potentials and calcium currents in tonic muscle fibres of the frog (*Rana pipiens*). 293

NISHIMURA Masakazu Factors influencing an increase in spontaneous transmitter release by hypoxia at the mouse neuromuscular junction. 303

LAMB T.D., MATTHEWS H.R. & TORRE V. Incorporation of calcium buffers into salamander retinal rods: a rejection of the calcium hypothesis of phototransduction. 315

CEÑA V., GARCÍA A.G., PI F. & SÁNCHEZ-GARCÍA P. Presence of a noradrenaline uptake system on a ligated cat sympathetic nerve. 351

ADAM-VIZI Vera & LIGETI Erzsébet Calcium uptake of rat brain synaptosomes as a function of membrane potential under different depolarizing conditions. 363

PEARCE Frederick L. & THOMPSON Helen L. Some characteristics of histamine secretion from rat peritoneal mast cells stimulated with nerve growth factor. 379

AIZENMAN E., BIERKAMPER G.G. & STANLEY E.F. Botulinum toxin prevents stimulus-induced backfiring produced by neostigmine in the mouse phrenic nerve–diaphragm. 395

DEUTSCH C., KRAUSE D. & LEE S.C. Voltage-gated potassium conductance in human T lymphocytes stimulated with phorbol ester. 405

FALEMPIN M., MADHLOUM A. & ROUSSEAU J.P. Effects of vagal deafferentation on oesophageal motility and transit in the sheep. 425

GRANT T.L. & MCGRATH J.C. The effects of arterial blood gas tensions on pressor responses to angiotensin II in the pithed rat. 437

FELDBERG W. & GUERTZENSTEIN P.G. Blood pressure effects of leptazol applied to the ventral surface of the brain stem of cats. 445

CASSELL J.F., CLARK Amanda L. & MCLACHLAN Elspeth M. Characteristics of phasic and tonic sympathetic ganglion cells of the guinea-pig. 457

GILLESPIE M. Jean, GORDON Tessa & MURPHY Peter R. Reinnervation of the lateral gastrocnemius and soleus muscles in the rat by their common nerve. 485

HARA Y., KUBOTA M. & SZURSZEWSKI J.H. Electrophysiology of smooth muscle of the small intestine of some mammals. 501

HARA Y. & SZURSZEWSKI J.H. Effect of potassium and acetylcholine on canine intestinal smooth muscle. 521

EISNER D.A. & VALDEOLMILLOS M. A study of intracellular calcium oscillations in sheep cardiac Purkinje fibres measured at the single cell level. 539

ANDERSON Page A.W., GLICK Katherine L., KILLAM Allen P. & MAINWARING Richard D. The effect of heart rate on *in utero* left ventricular output in the fetal sheep. 557

SCHAIBLE H.-G., SCHMIDT R.F. & WILLIS W.D. Responses of spinal cord neurones to stimulation of articular afferent fibres in the cat. 575

FORD L.E., HUXLEY A.F. & SIMMONS R.M. Tension transients during the rise of tetanic tension in frog muscle fibres. 595

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

8–9 *November* 1985

*St Thomas's Hospital Meeting*

## DEMONSTRATIONS

*Band D.M., Fry C.H. & Wolff C.B.* An improved low cost input stage for very high impedance microelectrode measurement. 2*P*

*O'Brien R., Prochazka A. & Vincent S.* Two versatile laboratory interfaces for multi-channel data acquisition and analysis, using the BBC microcomputer. 3*P*

*Preston Jane E., Segal M.B. & Somjen G.G.* Transfer of excess calcium through the isolated perfused choroid plexus of the sheep. 4*P*

*Band D.M., Kurer F.L. & Linton R.A.F.* A method for the characterization of afferent pulmonary stretch receptors in the cat. 5*P*

*Fry C.H., Harding D.P. & Miller D.J.* Separation of different $Ca^{2+}$ exchange processes in isolated rat ventricular myocytes. 6*P*

*Bennett T. & Gardiner S.M.* Cardiovascular monitoring in conscious unrestrained rats: a harness assembly for the protection of catheters and attachment of pulsed Doppler flow probe connectors. 7*P*

*Brain S.D., Clark R.P., Goff M.R. & Williams T.J.* Skin colour, temperature and blood flow in response to vasodilators in human skin. 8*P*

*Bruce S.A., Phillips S.K. & Woledge R.C.* Apparatus for measuring force of adduction of the thumb, and for measuring profiles of the hand in human subjects. 9*P*

*Dell Ralph & Taylor A.* Correction of underwater weighing of animal carcasses for trapped air. 10*P*

## COMMUNICATIONS

*Tansey E.M.* St Thomas's and 'The Headquarters of the Physiologists': a brief history of the Brown Animal Sanatory Institution. 11*P*

*Holmes O. & Wright D.M.* Prostaglandins and focal epileptiform discharges in rats. 12*P*

*Elias S.A., Somjen G. & Taylor A.* Glomerular potentials in the cerebellar cortex of the ferret. 13*P*

*Miles R. & Wong R.K.S.* Excitatory synaptic connexions between guinea-pig CA3 hippocampal cells are revealed when synaptic inhibition is suppressed *in vitro*. 14*P*

*Lemon R.N. & Mantel G.W.H.* The impact of differences in cortico-motor (CM) neurone firing frequency upon hand muscles in the conscious monkey. 15*P*

*Cole J.D., Philip H.I. & Sedgwick E.M.* An effect of unilateral cerebellar lesions involving past pointing on fine finger tremor in man. 16*P*

*Barasi S. & Clatworthy Andrea* The effect of intrathecally administered dopaminergic agents on nociceptive responses recorded from the thalamus in urethane-anaesthetized rats. 17*P*

*Lund P.K., Perl E.R. & Priestley J.V.* Localization of somatostatin mRNA in rat brain by *in situ* hybridization. 18*P*

*Lisney S.J.W.* The proportions of unmyelinated afferent and sympathetic postganglionic fibres in normal and regenerated cat sural nerves. 19*P*

*Aars H., Bjørnland T. & Brodin P.* Modulation by sympathetic nerve stimulation of the digastric reflex evoked by tooth taps in the rabbit. 20*P*

*Cunningham P.M. & Goldsmith G.E.* Suppression of trigeminal noxious responses by hypothalamic stimulation in conscious unrestrained rats. 21*P*

*McMahon Stephen* Turpentine inflammation: a nociceptive visceral stimulus in the rat. 22*P*

*Jordan D. & Wood L.M.* A convergent afferent input from the larynx and nasal mucosa of the cat. 23*P*

*Banks R.W. & Barker D.* Responses of cat muscle spindles reinnervated by afferents formerly terminating in tendon organs. 24*P*

*Donga R., Gottlieb Sue, Jüch P.J.W. & Taylor A.* The influence of red nucleus stimulation on fusimotor activity to jaw muscles of the cat. 25*P*

*Prochazka A. & Somjen G.G.* Insensitivity of cat muscle spindles to hyperkalaemia in the physiological range. 26*P*

*Mascarello F. & Rowlerson Anthea* 'Slow' fibres and spindles in the jaw-closer muscles of the cat and rabbit. 27*P*

*Jacks A., Prochazka A. & Trend P.St J.* Instability in human forearm positioning, during feedback-controlled electrical stimulation of muscles to mimic hyper-reflexia. 28*P*

*Davies Teifion W.* Variations in latency of reciprocal inhibition in human postural muscles. 29*P*

*Kučera J.* Intramuscular organization of the monkey skeletofusimotor system. 30*P*

*Bruce S.A., Phillips S.K. & Woledge R.C.* Isometric force in maximum voluntary contractions related to an estimate of the cross-sectional area of adductor pollicis in the human subject. 31*P*

*Fry C.H.* The actions of extracellular magnesium on isolated mammalian ventricular myocardium. 32*P*

*Jones C.M. & Lab Max J.* Site of pacing influences monophasic action-potential duration in porcine left ventricle *in situ*. 33*P*

*Yakhin Shimoni* The effects of isoprenaline on tension repriming and post-extrasystolic potentiation in isolated adult and neonatal mammalian atrium. 34*P*

*Nieman C.J.* The effects of isoprenaline on $Ca^{2+}$-dependent oscillations in isolated sheep cardiac Purkinje fibres. 35*P*

*Collins P., Henderson A.H. & Lewis M.J.* Species variation in basal endothelium-derived relaxant factor (EDRF) activity as measured by calcium influx in isolated vascular smooth muscle. 36*P*

*Fry C.H. & Palfrey E.L.H.* An *in vitro* investigation of normal and abnormal human bladder smooth muscle. 37*P*

*Kyle Helen, Robinson N.P., Robinson Nicola R. & Widdicombe J.G.* Simultaneous measurement of airway mucus secretion and smooth-muscle tone in ferret trachea *in vitro*. 38*P*

*Farmery A.D., Naidoo A.B. & Segal M.B.* The regional variation of potential across the tracheal epithelium of the sheep. 39*P*

*MacDonald A.G., Marshall N.R. & Pertwee R.G.* Does hydrostatic pressure affect behavioural thermoregulation in mice? 40*P*

*Ekström J. & Olgart L.* Substance P-evoked salivary secretion in the ferret. 41*P*

*Ekström J., Garrett J.R., Månsson B. & Tobin G.* Parotid degranulation and amylase secretion in rats caused by release of non-adrenergic non-cholinergic components from the parasympathetic nerve. 42*P*

*Innes A.J. & Taylor E.W.* An analysis of lung function in the Trinidadian mountain crab. 43*P*

*Gregory Linda J. & Ruddock K.H.* The influence of pentobarbitone on the actions of excitatory amino acids: measurements on horizontal cells of the isolated fish (roach) retina. 44*P*

*Ikeda Hisako & Robbins J.* The lack of benzodiazepine effects on the electroretinogram of the rat. 45*P*

*Reverdin E. & Weingart R.* Electrical coupling studied in cell pairs isolated from adult rat liver. 46*P*

*Davis R.L.* Successive events in the development of a non-rectifying electrical synapse between identified leech neurones in culture. 47*P*

*Cottrell G.A., Lambert J.J. & Peters J.A.* Alphaxalone potentiates GABA and stimulates the GABA receptor of bovine chromaffin cells in culture. 48*P*

*Cottrell G.A. & Green K.A.* Action of baclofen on voltage-dependent currents in mouse dorsal root ganglion neurones in culture. 49*P*

*Gurney A.M., Nerbonne J.M. & Rayburn H.B.* Development of voltage-activated currents in rat superior cervical ganglion cells in culture. 50*P*

*Houamed Khaled M. & Williams Stephen H.* Muscarinic modulation of a transient outward current in *Xenopus oocytes*. 51*P*

*Crepel F., Debono M.W. & Flores R.* Alpha-adrenergic inhibition of a low-threshold calcium conductance and of a calcium-dependent potassium current in rat cerebellar Purkinje cells *in vitro*. 52*P*

*Grissmer S.* Sodium currents in the isolated voltage-clamped frog internode. 53*P*

*Hodgkin A.L., McNaughton P.A. & Nunn B.J.* Effects of changing Ca before and after light flashes in salamander rods. 54*P*

*Arechiga H., Nicholls J. & Ross W.* Optical recording of Ca transients following impulses in identified leech neurones in culture. 55*P*

*Gray M.A., Montgomery R.A.P. & Williams A.J.* High-affinity voltage-dependent block of the $K^+$-channel from rabbit cardiac sarcoplasmic reticulum (SR) by gallamine. 56*P*

*Forbes A., Gilchrist I., Green T., Harper A.A., MacDonald A.G., McDiarmid V., Pennec J.-P., Tetteh-Lartey N. & Wardle C.* Functional fish axons from 4000 m depths, 400 atm pressure: preliminary results of *Challenger* cruise 6B/85. 57*P*

*Ikeda Hisako & Tansey E.M.* Fast axonal transport in the optic nerves of conventional and *nu/nu* (athymic) mice infected with Semliki Forest Virus. 58*P*

*Ikeda Hisako, Priest T.D., Robbins J. & Wakakuwa K.* Iontophoretically applied dopamine actions at the retinal ganglion cells reflect the spatial distribution of the rods in the cat retina. 59*P*

*Buckingham Julia C.* Secretion *in vitro* of corticotrophin by rat adenohypophysial tissue in response to vasopressin and its analogues. 60*P*

*Allen B.D., Jones M.T., Oliver C.B. & Sutanto W.* Characteristics of ($^3$H) corticosterone binding to rat anterior pituitary and hippocampal cytosols. 61*P*

*Aslam M., Jones M.T. & Nicholson S.A.* Effect of progesterone *in vivo* or *in vitro* on response of perifused rat pituitary fragments to repeated volleys of LHRH. 62*P*

*Nicholson S.A.* Further studies on recovery of the responsiveness of the pituitary gland after chronic prednisolone treatment in the rat. 63*P*

*Brennan Jenny, Fletcher Paula, Parsons V. & Prashad D.N.* The influence of the contraceptive pill on exercise-induced urinary excretion of minerals in humans. 64*P*

*Campbell E.A., Chuang T.T., Gillham B. & Jones M.T.* An *in vitro* preparation of rat perfused/perifused hypothalamus for studying the secretion of various hypothalamic releasing and inhibiting hormones. 65*P*

*Adcock I.M., Fitzpatrick F.T.A. & Greenstein B.D.* Regeneration of thymus in ageing rats after orchidectomy: effects of testosterone. 66*P*

*Forsling Mary L.* The effect of naloxone on the vasopressin response in the rat to centrally administered hypertonic sodium chloride. 67*P*

*Abbott N. Joan, Butt A.M., Joels Suzanne, Pitchford S. & Wallis W.* $Na^+$–$K^+$ transport at the blood–brain barrier – a micro-electrode study in the frog. 68*P*

*Greenwood J., Lantos P.L., Luthert P.J. & Pratt O.E.* Kinetics of thiamin transport across the blood–brain barrier of the rat in the apparent absence of energy-producing metabolism. 69*P*

*Greenwood J., Lantos P.L., Luthert P.J. & Pratt O.E.* The transport of D-glucose across the blood–brain barrier of the rat in the presence of metabolic inhibitor 2,4-dinitrophenol. 70*P*

*Band D.M. & Linton R.A.F.* Stimulation of carotid chemoreceptors by infusion of KCl in the anaesthetized cat. 71*P*

*Anand I.S., Harris P., Poole-Wilson P.A. & Wanless R.B.* Lack of change in renal vascular resistance in conscious rabbits when cardiac output is reduced without alteration of blood volume. 72*P*

*Longridge D.J., Schachter M., Stewart J.M., Uchida Y. & Vavrek R.J.* Synthetic competitive antagonists of bradykinin on vascular permeability in the rabbit. 73*P*

*Kennedy J.H. & Lever M.J.* Redistribution of ($^{125}$I) serum albumin and fluid in rats in haemorrhagic shock. 74*P*

*Brayden J.E. & Large W.A.* Electrophysiological analysis of cholinergic vasodilatation in the isolated rabbit lingual artery. 75*P*

*Bennett T. & Gardiner S.M.* Cardiac baroreflex sensitivities to depressor stimuli following acute and chronic arterial catheterization in Long Evans and Brattleboro rats. 76*P*

*Coats Rachel A.* $K^+$ release and uptake by muscle in the anaesthetized cat: effect of propranolol. 77*P*

*Burns J.K.* Aspects of glutamate metabolism in late pregnancy and in labour in humans. 78*P*

*Weir S.W. & Weston A.H.* Comparison of the effects of BRL 34915, nicorandil, adenosine triphosphate, isoprenaline and noradrenaline on the guinea-pig taenia caeci. 79*P*

*Elder H.Y., McEwan Jenkinson D., McWilliams S.A. & Wilson S.M.* Changes in the composition of the secretory epithelium of the equine sweat gland which accompany secretion *in vivo*. 79*P*

POSTER COMMUNICATIONS

*Ashley C.C. & Pritchard K.* Reduction in plasmalemmal sodium gradient leads to elevated cytosolic free calcium concentration in fura-2-loaded guinea-pig smooth-muscle cells. 80*P*

*Ashley C.C., Castell L.M., Ledingham J.G.G., Osborn C., Pritchard K., Raine A.E.G. & Somers V.K.* Calcium 81*P*

*Brooks P.A., Kelly J.S. & Stevens J.E.* Effects of inhalation anaesthetics on responses to GABA (γ-aminobutyric acid) and glutamate in rat hippocampal slices. 82*P*

*Allen J.M., Brooks P.A., Kelly J.S., Smith D.A.S. & Stone T.W.* Neuropeptide Y (NPY) causes excitation of granule cells of the rat dentate gyrus *in vitro*. 83*P*

*Cook J.E.* A sharp retinal image increases the precision of the regenerated goldfish retinotectal projection under stroboscopic conditions. 84*P*

*Cox G.E., Dashwood M.R., Parameswaran S.V. & Spyer K.M.* Autoradiographic demonstration of a variation in receptor populations in the nucleus of the tractus solitarius between rabbit and cat. 85*P*

*Plummer J.M., Robertson L. & Watson P.F.* Calcium ion movement across the plasma membrane of ram spermatozoa subjected to mild cold stress. 86*P*

*Jordan D., Spyer K.M., Withington-Wray D.J. & Wood L.M.* Histochemical and electrophysiological identification of cardiac and pulmonary vagal prepanglionic neurones in the cat. 87*P*

*Mason R. & the late Groos G.A.* An electrophysiological study of the superior collicular and visual cortical projections to the lateral posterior nucleus in the rat. 88*P*

*Livingston A., Morris R. & Nolan A.* A cutaneous pressure device for measuring the effects of antinociceptive drugs in sheep. 89*P*
